

# "Fab Four"

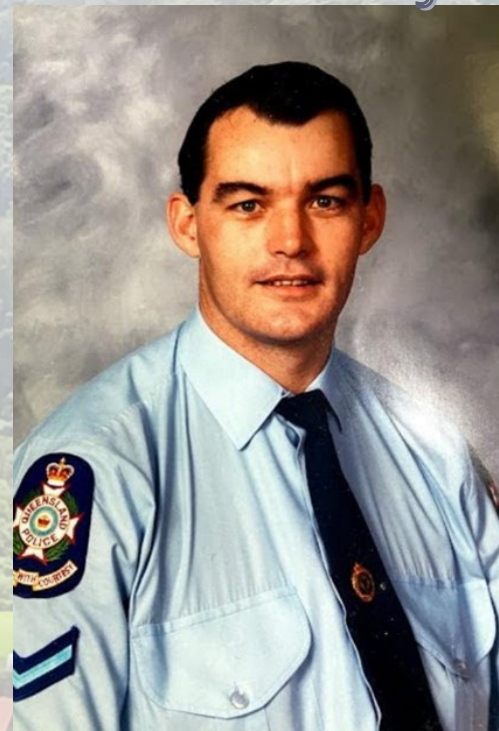

## Bill Crompton

On the back of two very successful Youth Leadership Camps, Bill was the original driving force behind finding the Bornhoffen property and encouraging the Queensland PYC to purchase it and get a Leadership Development Centre going. Bill served in many capacities from the Foundation Committee to mixing concrete much of which was done in his own time. He served Bornhoffen from 1978 – 1990

As a young man fresh out of college, Mark was a coordinator on the first two Leadership Camps that were the catalyst for sourcing Bornhoffen as a permanent home for Leadership Development Camps and activities. Mark was responsible for overseeing all construction during 1978 – 1990. He also volunteered many personal hours to ensure Bornhoffen got off to a flying start. Mark was a Foundation Committee member from 1979 – 1990

## Mark Dufficy

## Ray Stiffler

Having seen firsthand the positive impact leadership camps could bring to young people, Ray wanted in on this worthwhile work and volunteered many hours to assist in whatever way he could to help. His skills in camp oven cooking made sure all were fed well. Ray also served on the Foundation Committee and volunteered from 1979 – 1990

## Alf Koplick

Alf served as Superintendent of Numinbah Prison Farm from 1976 – 1992. Alf partnered with Bornhoffen in whatever way he could in his work capacity by providing a small, regular work force made up of inmates who were the labour for many of the projects. He also facilitated the acquisition of the first accommodation huts for the Wagawn camp from former correctional services locations. Alf was a Foundation Committee member and volunteer from 1979 – 1990

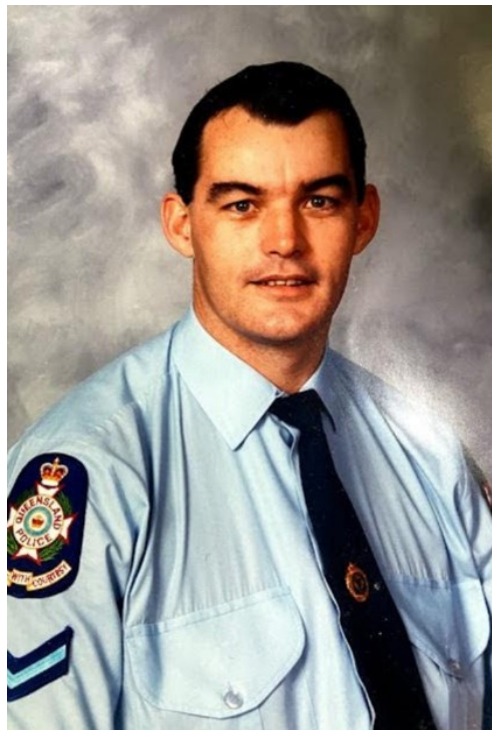

***The good work of the "FAB FOUR" could not have happened without the support of many others, including that of their families and friends. One and all were offered the concreting trowel or hammer of friendship.***
